Northern Arizona University

- We are a public institution with 28,000 students on campus.
- Flagstaff is an Astro Tourism Destination - Astronomical bodies Pluto, Eris, Sedna were found here at Lowell Observatory.
- NASA has a ZERO gravity crater 20 mins away from our campus! Buzz ALDRIN & Neil ARMSTRONG trained here before the moon landing.
- 2nd HIGHEST elevation College in the US - It snows here in Arizona!
- 3rd BEST COLLEGE TOWN in the US.
- Flagstaff has the Cleanest AIR in the US!

The logo for the School of the Art Institute of Chicago (SAIC), featuring the letters "SAIC" in a bold, blue, sans-serif font.

**School of the Art Institute
of Chicago**

A museum campus located in downtown Chicago.

#2 Art & Design Graduate Programs in the US & #7 Art & Design School in the World.

Known for its interdisciplinary curriculum, we have renowned faculty who are often practising artists.

Part of the AICAD consortium, many of our programs are combination of real-world experience with critique based assessments and culminate into based liberal art degrees.

Over the past 150 years, SAIC has fostering critical thinking, rigorous investigation, and playful creativity. Founded by artists for artists, SAIC has a rich history of innovation in art and design education.

THE FUTURE OF CREATIVE JOBS: Relevance in the 21st Century

Forbes

Creative Professions

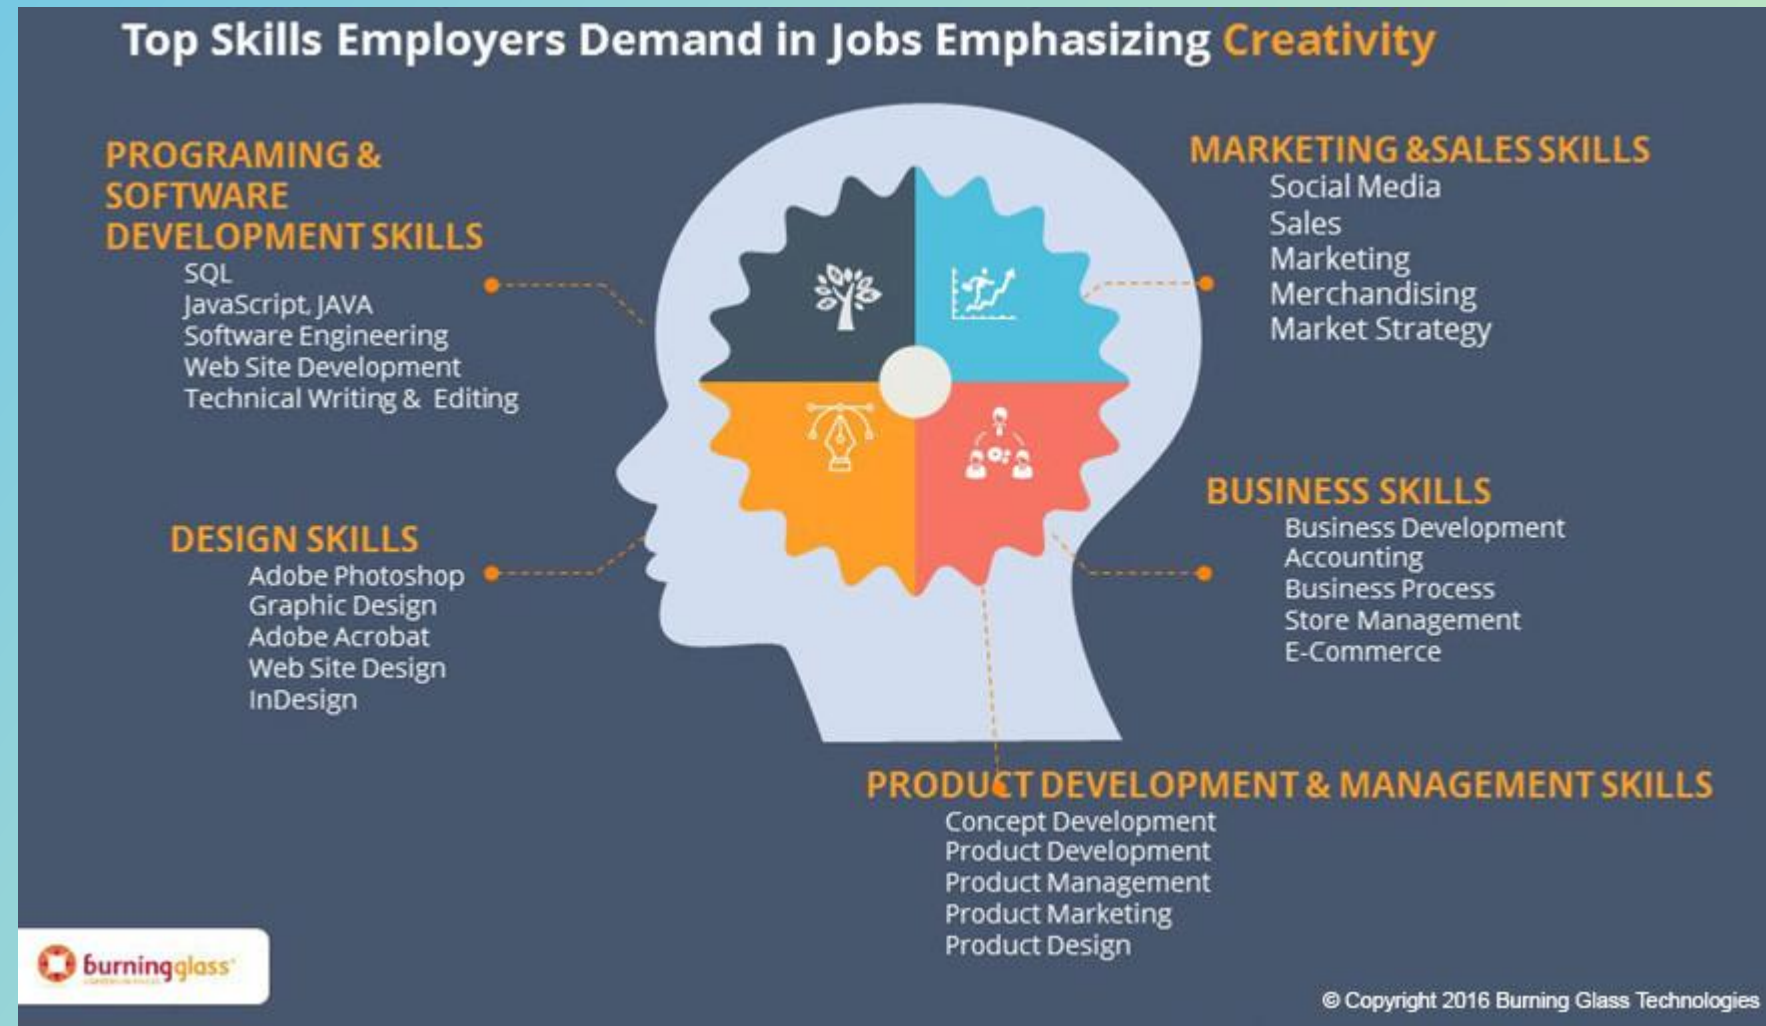

Jobs in the arts, such as musicians, writers, painters, and other creatives in advertising for instance, rely heavily on human creativity, emotion, and subjective interpretation, making them less susceptible to automation. AI can try to take over our left-brain functions, but as for our right brain, that will always be ours.

Creative Problem-Solving

Many problems can be solved with left-brain, linear thinking.

Those are not the ones that change civilization, though.

Professions that involve solving novel and complex problems – or tantalizing opportunities – require creativity, critical thinking, holistic thinking, pattern recognition, and adaptability. AI can assist in data analysis and decision support, but it totally lacks the ability to generate truly innovative revelations.

Discussion Questions

How can students balance the development of soft and hard skills while pursuing degree programs?

What is the role of internships and networking during degree programs?

How do you find a university that is going to support your student in getting ready for the job market?

The Globalization of Post-Secondary Education

Increasing student mobility across borders as students seek the best education worldwide.

- **Data:** In 2021, over 5.6 million students were studying outside their home country, a number that continues to rise annually. <https://uis.unesco.org/en/uis-student-flow>

Growing demand for diverse cultural and academic experiences.

- **Data:** Over 70% of international students cite gaining global perspectives and cultural experiences as a key factor in their decision to study abroad, according to an ICEF Monitor report. <https://monitor.icef.com/category/macro-trends/student-mobility/>

Education as a Pathway to Global Careers

Importance of labor markets when selecting a study destination.

- **Data:** Countries like the U.S., Canada, and Australia are preferred due to strong post-graduation employment rates, with over 50% of international students in the U.S. securing jobs within three months of graduation. <https://opendoorsdata.org/>

The role of internships and co-op programs in enhancing employability.

- **Data:** 60% of international students in Canada participated in co-op programs, which significantly boosted their employability. <https://cbie.ca/>

Beyond STEM - Diverse Career Opportunities

Growth of creative industries globally.

- **Data:** The global creative economy is expected to reach \$985 billion by 2023, offering numerous opportunities for careers in arts, media, and design. [UNESCO - Creative Economy Report](#)

Increasing value of non-STEM degrees in the global job market.

- **Data:** Fields like social sciences, humanities, and arts saw a 20% increase in job openings across the OECD countries between 2015-2020. OECD - Employment Outlook Report

The Role of International Education in Shaping Careers

Development of a global mindset and cultural competency.

- **Data:** 75% of employers value international experience and the ability to work across cultures when hiring. QS TopUniversities - Global Employer Survey

Access to global networks and industry connections.

- **Data:** Graduates from international universities have a 25% higher likelihood of securing positions in multinational companies. <https://www.weforum.org/organizations/education-international/>

Case Studies and Success Stories

Studying Film Production at NYU now leads a major film studio in Mumbai.

Studying Economics at LSE is now a senior researcher at the UN.

Studying Biomedical Engineering in the UK and made significant contribution in Carona Virus Vaccination at SII.
